

How to Reference Web Pages

1. List the author or source of the web page, if you can find a name. Last name first, followed by a period.
2. List the web page title, in quotations, followed by a period.
3. List the website title, underlined, followed by a period.
4. List the *URL of the website, in angle brackets, followed by a period.
5. List the date (d/m/y) you visited the website, in brackets, followed by a period.

Example:

Enzer, Matisse. "Page U". Glossary of Internet Terms.
<http://www.matisse.net/files/glossary.html> (10 May, 2003)

* URL is an acronym that stands for "Uniform Resource Locator". This is the website's internet address.
